#### Extract from California Civil Code § 5730 Notice Regarding Assessments and Foreclosure

#### NOTICE ASSESSMENTS AND FORECLOSURE

This notice outlines some of the rights and responsibilities of owners of property in common interest developments and the associations that manage them. Please refer to the sections of the Civil Code indicated for further information. A portion of the information in this notice applies only to liens recorded on or after January 1, 2003. You may wish to consult a lawyer if you dispute an assessment.

#### ASSESSMENTS AND FORECLOSURE

Assessments become delinquent 15 days after they are due, unless the governing documents provide for a longer time. The failure to pay association assessments may result in the loss of an owner's property through foreclosure. Foreclosure may occur either as a result of a court action, known as judicial foreclosure or without court action, often referred to as non-judicial foreclosure. For liens recorded on or after January 1, 2006, an association may not use judicial or non-judicial foreclosure to enforce that lien if the amount of the delinquent assessments or dues, exclusive of any accelerated assessments, late charges, fees, attorney's fees, interest, and costs of collection, is less than one thousand eight hundred dollars (\$1,800). For delinquent assessments or dues in excess of one thousand eight hundred dollars (\$1,800) or more than 12 months delinquent, an association may use judicial or non-judicial foreclosure subject to the conditions set forth in Article 3 (commencing with Section 5700) of Chapter 8 Part 5 of Division 4 of the Civil Code. When using judicial or non-judicial foreclosure, the association records a lien on the owner's property. The owner's property may be sold to satisfy the lien if the amounts secured by the lien are not paid. (Sections 5700 through 5720 of the Civil Code, inclusive)

In a judicial or non-judicial foreclosure, the association may recover assessments, reasonable costs of collection, reasonable attorney's fees, late charges, and interest. The association may not use non-judicial foreclosure to collect fines or penalties, except for costs to repair common areas damaged by a member or a member's guests, if the governing documents provide for this. (Section 5725 of the Civil Code)

The association must comply with the requirements of Article 2 (commencing with Section 5650) Chapter 8 of Part 5 Division 4 of the Civil Code when collecting delinquent assessments. If the association fails to follow these requirements, it may not record a lien on the owner's property until it has satisfied those requirements. Any additional costs that result from satisfying the requirements are the responsibility of the association. (Section 5675 of the Civil Code).

Assessment - Collection Civil Code Section

At least 30 days prior to recording a lien on an owner's separate interest, the association must provide the owner of record with certain documents by certified mail, including a description of its collection and lien enforcement procedures and the method of calculating the amount. It must also provide an itemized statement of the charges owed by the owner. An owner has a right to review the association's records to verify the debt. (Section 5660 of the Civil Code)

If a lien is recorded against an owner's property in error, the person who recorded the lien is required to record a lien release within 21 days, and to provide an owner certain documents in this regard. (Section 5685 of the Civil Code)

The collection practices of the association may be governed by state and federal laws regarding fair debt collection. Penalties can be imposed for debt collection practices that violate these laws.

#### **PAYMENTS**

When an owner makes a payment, he or she may request a receipt, and the association is required to provide it. On the receipt, the association must indicate the date of payment and the person who received it. The association must inform owners of a mailing address for overnight payments. (Section 5655 of the Civil Code)

An owner may, but is not obligated to, pay under protest any disputed charge or sum levied by the association, including, but not limited to, an assessment, fine, penalty, late fee, collection cost, or monetary penalty imposed as a disciplinary measure, and by so doing, specifically reserve the right to contest the disputed charge or sum in court or otherwise. An owner may dispute an assessment debt by submitting a written request for dispute resolution to the association as set forth in Article 2 (commencing with Section 5900) of Chapter 10 of Part 5 of Division 4 of the Civil Code. In addition, an association may not initiate a foreclosure without participating in alternative dispute resolution with a neutral third party as set forth in Article 3 (commencing with Section 5925) of Chapter 10 of Part 5 of Division 4 of the Civil Code, if so requested by the owner. Binding arbitration shall not be available if the association intends to initiate a judicial foreclosure.

An owner is not liable for charges, interest, and costs of collection, if it is established that the assessment was paid properly on time. (Section 5685 of the Civil Code)

#### MEETINGS AND PAYMENT PLANS

An owner of a separate interest that is not a time-share may request the association to consider a payment plan to satisfy a delinquent assessment. The association must inform owners of the standards for payment plans, if any exist. (Section 5665 of the Civil Code)

The board of the directors must meet with an owner who makes a proper written request for a meeting to discuss a payment plan when the owner has received a notice of a delinquent assessment. These payment plans must conform with the payment plan standards of the association, if they exist. (Section 5665 of the Civil Code).

Assessment - Collection Civil Code Section

#### **ALTERNATIVE DISPUTE RESOLUTION**

Beginning January 1, 1994, California law provides that when the owner of a separate interest (a Homeowner) or the common interest development (CID)/association brings an action: a) solely for declaratory relief or injunction relief; or

b) either of those in conjunction with a claim for monetary damages; (Other than Association Assessments, not to exceed \$5,000) relating to the enforcement of the governing documents of the association, they endeavor to submit the matter to alternative dispute resolution (ADR).

What this means, in general, is that in those prescribed types of disputes, before filing a lawsuit, an attempt must be made to settle. This must be done in a semi technical manner. The method of beginning the attempt at ADR is to serve on the opposing party a Request for Resolution. With certain exceptions, the law requires a certificate be filed with any civil action, certifying compliance with the above stated requirements.

Please be advised that the statement above is intended to be only the broadest of interpretations and merely to advise that such a law exists. There are a number of other factors involved, including attorney's fees; arbitration or mediation costs; and the results of not conforming to this law (*Civil Code § 5825 through 5965*).

The California legislature has also provided that each year your Association must send out a summary of this law and that summary must specifically include the following excerpt of the law:

"Failure by any member of the association to comply with the pre-filing requirements of § 5930 of the *Civil Code* may result in the loss of your rights to sue the association or another member of the association regarding enforcement of the governing documents".

As you can see, failure to comply with this law may prejudice your rights. We strongly urge each one of you to carefully read the statue and consult with an attorney prior to commencing any litigation regarding the enforcement of the governing documents.

Alternative Dispute Resolution

#### INTERNAL DISPUTE RESOLUTION PROCEDURE

The California Legislature has adopted new regulations codified in *Civil Code Sections* 5900 through 5920, which require Associations to adopt fair, reasonable and expeditious dispute resolution procedures, effective January 1, 2005. This separate and apart from, and precedes, the formal ADR (Alternative Dispute Resolution) requirements set forth in *Civil Code Section* 5925 through 5965. The Association has adopted the following procedures as required under such law:

- 1. The Association or an Owner may invoke the procedures herein by submitting a request to the other to meet and confer in an effort to resolve any existing dispute. The request must be in writing.
- 2. An Owner may refuse a request to meet and confer made by the Association with the understanding that further enforcement action may be taken if the dispute is not resolved. The Association may not refuse a request by an Owner to meet and confer.
- 3. The Association's Board of Directors shall designate a Board member to meet and confer with an Owner.
- 4. The designated Board member and the Owner shall meet promptly at a mutually convenient time and place. The parties shall explain their positions to each other and attempt, in good faith to resolve the dispute.
- 5. Any resolution of the dispute agreed to by the parties shall be set forth in writing and signed by the Owner and the designated Board member on behalf of the Association.
- 6. An agreement reached under this procedure is binding on the Owner and the Association and is enforceable in court if both of the following conditions are met:
  - a. The agreement is not in conflict with law or the Association's governing documents.
  - b. The agreement is consistent with the authority granted by the Board of Director's to the designated Board member or is ratified by the Board.
- 7. Owners will not be charged a fee to participate in the process.

Internal Dispute Resolution

## OAK HILLS HOMEOWNERS ASSOCIATION DELINQUENT ASSESSMENT COLLECTION POLICY

Prompt payment of assessments by all owners is critical to the financial health of the Association and to protect, maintain and enhance the property values of our homes. Your Board of Directors takes very seriously its obligations under the CC&Rs and the California Civil Code to enforce the owners' obligations to pay assessments, and as such, asks that you please read the following practices and policies:

#### Due Date

• Regular assessments are due in advance on the first (1<sup>st</sup>) day of each assessment period and become delinquent if not received, in full, by the Association within forty-five (45) days after the due date. Special Assessments and Individual Special Assessments are due on the date(s) specified upon imposition and each installment thereof shall be delinquent if not received by the Association within (45) days after the specified due date.

#### Late Fees

• A late charge not exceeding ten percent (10%) of the delinquent assessment or ten dollars (\$10.00), whichever is greater, unless the Declaration specifies a late charge in a smaller amount, in which case any late charge imposed shall not exceed the amount specified in the Declaration, shall be due on any such delinquent assessment, unless the Declaration specifies a late charge in a small amount, in which case the late charge imposed shall not exceed the amount specified in the Declaration or the Civil Code.

#### Interest

• Interest on all sums imposed in accordance with California Civil Code 1366, including the delinquent assessment, reasonable fees and costs of collection, and reasonable attorneys' fees, at an annual interest rate not to exceed twelve percent (12%), or the amount allowed by law, shall be due commencing One Hundred Eighty (180) days after the assessment becomes due, unless the Declaration specifies the recovery of interest at a rate of a lesser amount, in which case the lesser rate of interest shall apply.

#### **Payments**

• All such amounts and all other assessments and related charges thereafter due to the Association until all such amounts are paid, must be paid in full and the Association shall not be required to accept any partial or installment payments from the date of the institution of an action to enforce the payment of delinquent amounts in the time that all such amounts are paid in full.

#### Application of Payments

• All payments received by the Association, regardless of the amount paid, will be directed to the oldest assessment balances first, until which time all assessment

balances are paid, and then to late charges, interest and costs of collection (including attorneys' fees) unless otherwise specified by written agreement.

#### Pre-Lien

 At least thirty (30) days prior to recording a lien on the separate interest property, the Association must provide the owner, in writing, by certified mail all of the information as required by California Civil Code 1365.1. Attorneys' fees and costs in the collection of a past due account will be charged to the delinquent owner.

#### **Dispute Resolution**

An owner who is in receipt of a Pre-Lien Notice may request and the Association
will comply to participate in a dispute resolution program. The owner may
choose Internal Dispute Resolution (IDR) in which the owner will "meet and
confer" with the Board or their representatives or they may choose Alternative
Dispute Resolution (ADR) with a neutral party to mediate. The cost of ADR will
be as provided by law.

#### Notice of Delinquent Assessment (Lien)

• If an owner does not request dispute resolution within thirty (30) days from the date of the mailing of the Pre-Lien Notice, or upon the conclusion of dispute resolution, the Board shall vote in an open meeting to determine whether a Notice of Delinquent Assessment shall be recorded. Any decision to record a Notice of Delinquent Assessment must be approved by a majority of the Board and shall be recorded in the minutes of that meeting. A copy of the Notice of Delinquent Assessment will be mailed by certified mail to all record owners of the separate interest no later than ten (10) calendar days following the date of its recordation.

#### Payment Plan

• An owner may make a formal written request to meet with the Board to discuss a payment plan for the debt described in the Pre-Lien Notice. The Board shall meet with the owner, in executive session, within forty-five (45) days of the postmark of the notice, if the request is mailed within fifteen (15) days of the date of the postmark of the notice, unless there is no regularly scheduled Board meeting within that period.

#### Foreclosure

• Delinquent Assessments, which comply with the provisions of California Civil Code 1367.4, can be collected using Judicial or Non-Judicial Foreclosure of the owner's separate interest property.

#### Redemption

• Property foreclosed upon by the Judicial or Non-Judicial process is subject to the right of redemption as provided by law.

#### Remedies

• In addition, to and/or in place of any other remedy specified in this Collection Policy, the Association shall be entitled to bring an action at law against the owner personally responsible for the payment of the amount due.

#### Attorneys' Fees and Costs

• The Association shall be entitled to charge the owner for the reasonable costs of collection, including without limitation, attorneys' fees, in addition to the late charges imposed in accordance with the Collection Policy.

#### Returned Check Charge

• The Association shall charge a "returned check charge"; our current fee is twenty-five dollars (\$25.00) for all checks returned as "non-negotiable", "insufficient funds" or for any other reason.

#### Mailing Address

• All above-referenced notices will be mailed to the record owner(s) at the mailing addresses provided in writing to the Association by such owner(s). It is the owner's responsibility to inform the Association, in writing of their current mailing address or secondary address.

#### Payment Address

• The mailing address for the overnight payment of assessments is the same as that for routine assessment payments unless otherwise noted.

#### **Policy Revision**

• The policies and practices outlined shall remain in effect until such time as they may be changed or modified or amended by a daily adopted resolution of the Board of Directors. Owners will receive a revised policy at least thirty (30) days prior to its implementation.

## Greenbelt Vehicle Access Policy For The Oak Hills Homeowner's Association

The Oak Hills Homeowner's Association is responsible for preserving the natural beauty of the greenbelt as well as the safety and security of our neighbors. Any prior permission given by the Board to pass over the greenbelt area is revoked. Future access to pass over the greenbelt area will be made only in accordance with this Policy.

No motorized vehicles will be allowed to pass over the Oak Hills Homeowner's Association property without the prior written permission of the Board of the Oak Hills Homeowner's Association. This policy applies to all Oak Hills Homeowner's Association property including, but not limited to, all parkways, greenbelt access paths, and the greenbelt.

OHHA maintenance vehicles and contractors providing maintenance for the OHHA are permitted to drive in the greenbelt.

The Board of the Oak Hills Homeowner's Association recognizes that there are occasional needs to access homeowner's property through the greenbelt for maintenance needs. Written permission for this access must be obtained from the Board by contacting the office by phone or email.

Failure to gain prior written permission from the OHHA Board may result in fines and/or legal action.

Fine schedule:

First offense – Warning Further offenses –\$50 per occurrence

Adopted by the Board on September 24, 2018.

## LANDSCAPE RULES AND REGULATIONS FOR OAK HILLS HOMEOWNERS ASSOCIATION

The CC&R's of the Oak Hills Homeowners Association are established and agreed upon in order to enhance and protect the value, desirability, and attractiveness of property in the Oak Hills Homeowner's Association. Therefore, the OHHA Board has approved the following Rules and Regulations:

#### FRONT YARDS AND PARKWAYS:

- Landscaping visible to a passerby must be maintained to a standard to be determined by the OHHA Board or by the Landscape Committee based on the following criteria:
- Yards must be maintained so that weeds and grasses will be no taller than 8 inches.
  - A. This standard will not be applied to ornamental grasses, drought tolerant plantings such as succulents, and other landscaping plants which are designed to be kept in a natural state.
  - B. This standard will not be applied to landscaping under improvement if in the opinion of the Landscape Committee a reasonable effort is being made to improve the appearance of the property in a timely manner.
  - C. No vehicles may be parked on landscaping.
- Bushes and trees must not protrude onto or overhang the walkway so as to impede pedestrian traffic.
- Fences must be maintained and not leaning, falling or otherwise in disrepair.
- No sheds or storage structures shall be erected in front yards so as to be visible from the sidewalk.
- Discarded items, brush piles, and refuse may not be stored in view of any passerby.

#### **VIOLATIONS:**

- Once it is determined a violation of these standards exists, a certified letter will be sent notifying the homeowner and requesting that the homeowner correct the violation within 30 days.
- If the homeowner takes no action, another certified letter will be sent giving the homeowner at least ten day notice of a hearing before the OHHA Board.
- At the hearing, the homeowner or homeowner's counsel will be allowed to speak to the OHHA Board concerning the alleged violation and to provide documentation for the OHHA Board to consider.
- A written notice of the OHHA Board's decision on whether to impose the fine of \$50.00 will be delivered to the homeowner within 15 days.
- A fine of \$50.00 will be assessed if no action is taken for each month thereafter.
- An appeal process is available for homeowners who feel any penalty has been unjustly assessed to their property. Homeowners disputing fines may contact by mail or email, the OHHA Administrator or President to schedule an executive board meeting. Should a meeting with the executive board fail to result in a solution satisfactory to both parties, a mediator may be hired, with the costs to be paid by the losing party.

OHHA Fine Schedule – effective 1-11-17

Failure to maintain landscaping in accordance with the OHHA Landscaping Rules and Regulations-----\$50 per month

#### SIGNAGE POLICY FOR THE OAK HILLS HOMEOWNERS ASSOCIATION

No signage may be erected or displayed, other than temporary signs for such activities as a property sale, rental, open house, garage sale, political, etc.

Temporary signage/balloons must be removed within 24 hours of event.

Signage should not present a nuisance nor be considered a nuisance within the neighborhood: that signage may not be more than four (4) square feet in size, vertical or horizontal.

Board of Directors reserves the right to approve, remove, or prohibit the placement of any signage on Association/Greenbelt property.

#### **General Association Information**

This Reserve Study and Cash Flow Analysis have been prepared for the board and their members. OAK HILLS HOMEOWNERS ASSOCIATION located in Montery in the city of Salinas, CA. Each owner receives title to his unit, a membership in the OAK HILLS HOMEOWNERS ASSOCIATION, and an undivided percentage interest as tenant in common in the common area on which their unit is located. The Board of Directors is accountable to the membership for the management and operation of the association. The reserve study and/or update summary and its recommended funding plan provides financial guidance which is often indispensable and shows due diligence from the board and its members.

Management Company Self-Managed

The board is hereby requested to review and notify Golden Consulting Group within 30 days after the receipt of the study or update with any requested changes, errors or discrepancies within the report. Golden Consulting Group will act within 48 hours to address any requested changes, errors or discrepancies within the study or update. The reserve study or update should be reviewed and approved by the board within 45 days of the receipt of the report.

The board is cautioned to understand that the funding plan has projected the current funds on hand and has increased the contributions in accordance to the thirty (30) year cash flow analysis as required by Davis-Stirling Act. It is impossible to project thirty (30) years into the future to ascertain the cost of repair or replacement of any of the components, let alone the value of money, changing building code requirements and other unknowns. Golden Consulting Group has estimated and projected future cost of repairs and replacement of those components for the Board of Directors of the above Homeowners Association.

#### Board Alterations to Study and/or Updates

**Question:** I'm on our board and we just completed reviewing our reserve study. There are items on the list with a life that equals or exceeds the estimated life of the buildings. We wanted them removed, but the analyst refused. Doesn't our board have the authority to remove components?

**Answer:** Not really. That's like asking an attorney to change his legal opinion because the board disagrees with it. Or telling a CPA to change his audit report because directors don't like what he found. A reserve specialist is a professional who prepares a report based on his own observations and calculations--it's his report to the board.

**Adjustments**. Accordingly, boards have no "right" to dictate changes to an independent professional's report. However, adjustments can be made to draft opinions/reports by attorneys, CPAs and reserve specialists if the adjustments are reasonable and the professional agrees. For example if something is unclear or is missing and needs to be addressed by the professional, it can be included in the final report.

**Funding.** Although reserve specialists establish the list of major components, the board can choose not to fund particular items if it complies with Davis-Stirling disclosure requirements, i.e., the report must disclose:

Whether the board of directors of the association has determined to defer or not undertake repairs or replacement of any major component with a remaining life of 30 years or less, including a justification for the deferral or decision not to undertake the repairs or replacement. (Civ. Code §5300(b)(4))

Accordingly, a reserve study could list components in the inventory and then eliminate them from funding calculations with a note that funding was removed at the board's request.

30-Year+ Life. Including components in the Study with useful life of over 30 years with no funding creates a "marker" for future inclusion in the funding plan when the life expectancy falls below 30 years. This is especially important when it comes to plumbing systems since they are hidden in walls and frequently overlooked by boards--until they fail and large special assessments are needed.

#### Percent Funding of Reserves

The OAK HILLS HOMEOWNERS ASSOCIATION was originally built and/or renovated in1973 became an active Homeowner Association in 1973. An on-site visual inspection of the common reserve components was performed on September 24, 2020 Golden Consulting Group.

The percent funded for OAK HILLS HOMEOWNERS ASSOCIATION is estimated at Fiscal Year End, December 31, 2020 is 152%. Golden Consulting Group has based this method of calculation by dividing the actual reserve account balance as of fiscal year end by the estimated amount required in the reserve fund at the end of the current fiscal year. Based on the enclosed current 30 Year Reserve Study Funding Plan it is estimated that the reserve account balance SHOULD BE sufficient at the end of each year to meet the Association's obligation for repair and/or replacement of major components during the next 30 years.

However in order to ensure the association's projected reserve expenditures the association should approve annual increases starting in fiscal year 2022 and continuing thru fiscal year 2050. By using the enclosed 30 Year Reserve Study Funding Plan, a Special Assessment WILL NOT likely be necessary to fund the reserves.

In general, the OAK HILLS HOMEOWNERS ASSOCIATION is overall in GOOD CONDITION. The baseline funding strategy sets a funding goal of keeping enough cash to maintain the association's reserve components always. The approximate replacement/repair costs for Association is estimated at approximately \$557,075.

Golden Consulting Group has estimated the projected average future cost of repairs and replacement of those components for the Association. The annual reserves are based on a straight- line approach: Replacement Costs divided by Life Expectancy per each component. Based upon the Golden Consulting Group's calculations the annual reserve contribution would be approximately \$37,122 a year. The estimated fully funded accrued amount or the aged components is approximately \$184,606. This is calculated Life Expectancy minus Remaining Life times (x) annual reserve contribution. The recommended annual reserve contribution for fiscal year beginning, January 1, 2021 can remain the same at \$24,780 or \$7.68 pr unit per month with annual increases each year starting in fiscal year 2022 to ensure the capital improvements/maintenance obligations of the Association.

Golden Consulting Group uses a 2.5% annual cpi inflation rate to calculate the 30 year funding maintenance plan. However, based on the inflation rates listed below the average inflation rate over the last 18 years is 2.2%.

PERCENT FUNDED	152%
Current US Inflation Rates: 2000-2018	2.50%
Estimated Interest Rate Reserve Account	0.10%
Annual Reserves Required (Based on Straight Line Funding Method)	\$37,122
Reserve Account Balance as of August 31, 2020	\$273,324
2020 Reserve Contribution (Sept-Dec)	\$8,260
2020 Average Interest Rate on Reserve Account @ .1%	\$282
2020 Reserve Expenditures (Sept-Dec)	-\$1,250
Estimated Reserve Balance as of FYE December 31, 2020	\$280,616
Fully Funded Accrued Reserve Amount as of FYE, December 31, 2020	\$184,606
Reserve Balance - Fully Funded Balance Surplus:	\$96,009
Reserve Balance - Fully Funded Balance SurplusPer Unit	\$357

The estimated reserve account balance does not take into consideration any monies owed to the reserve fund and/or any delinquent accounts. The estimated reserve balance only includes actual cash on hand located in the reserve account as of August 31, 2020 and any future reserve contributions minus any anticipated reserve expenditures.

The enclosed reserve study/update is not a maintenance manual but it does provide some general guidelines regarding the association maintenance obligations. This Reserve Study is a good faith estimate from either plans prior to construction and/or completion and/or existing historical data. The association should conduct or should have conducted a reserve study after its first year of operation to adjust the reserve funding plan for any changes which may have taken place during construction. Although some components may be inspected, serviced and maintained by the Association, it's always advised to have a qualified licensed professional perform the maintenance and care of the product. If you are unsure of the maintenance, please refer to the manufactures user guide.

Showing a reserve deficit/surplus does not necessarily indicate that an association is in good or poor financial condition. The current funding plan will help eliminate the presence of surplus and/or deficit over a period of years. However, funding levels could decrease or increase each year based upon repairs and/or replacements which may be scheduled and for unforeseen replacements, in which annual reserve updates are necessary to account for the changes and/or adjustments.

The enclosed reserve study/update should act as a long-term budgeting tool that evaluates the current financial status and helps develop a maintenance plan for future spending due to the aging and deterioration of the association's reserve components.

During an on-site visual inspection of the reserve components, Golden Consulting Group will visually examined both the both physical appearance and working condition of the component(s). Normally only those components which have an estimated useful life of less than 30 years will be included in the study, in which the Association would be responsible for the maintenance (repaired, replaced, or service).

Any component that is scheduled to be repaired or replaced annually should be included in the operating budget unless the Board of Directors specifies otherwise. This reserve study is not intended to be used to perform an audit, an analysis of quality, a forensic study or a background check of the historical records. No destructive testing has been undertaken nor will the study address any latent defects or life expectancies which are abnormally short due to either improper design and/or installation, unless the Association or members has contracted with an independent consulting to examine and report the findings on specific components. The reserve study is solely based upon the visual condition, maintenance, service and/or the replacement of the reserve components rather than the reconstruction, renovation, or remodeling of the component(s). It is impossible to project thirty (30) years into the future to ascertain the cost of repair or replacement of any of the components, let alone the value of money, changing building code requirements and other unknowns. It's always recommended and advised to have a qualified licensed professional perform the maintenance and care of the components. If you are unsure of the maintenance of a specific reserve component, please refer to the manufacturer guide.

Per Civil Code §5300(b)(4)) The board of directors of the association must disclose if they determined to defer or not undertake repairs or replacement of any major component with a remaining life of 30 years or less, including a justification for the deferral or decision not to undertake the repairs or replacement.

For Fiscal Year Ending 2020: The board HAS NOT chosen to defer maintenance and/or replacement of the anticipated reserve expenditures. (see study for more information)

#### The Anticipated Reserve Expenditures were as follows for Fiscal Year:

2020

Paint Post and Caps @ Tennis Ct	Adjusted RL to 3 Years Re-Access in 3 years
Window Guard 3 x 2	Adjusted RL to 10 Years - recently painted (2 paint cycles)
Window Guard 4 x 2	Adjusted RL to 10 Years - recently painted (2 paint cycles)
Window Guard 6 x 4	Adjusted RL to 10 Years - recently painted (2 paint cycles)
Sliding Glass Door Guard/Gate	Adjusted RL to 10 Years - recently painted (2 paint cycles)
Tot Lot Border	Adj RL +3 (re-access in 3 years)
Metal Benches @ Park	Adj RL +3 (re-access in 3 years)
Metal Benches @ Pool House	Adj RL +3 (re-access in 3 years)
Picnic Table @ Park	Adj RL +3 (re-access in 3 years)

Maintenance will only be deferred 1 Year unless the Board of Directors specifies otherwise.

It is our recommendation that all anticipated reserve expenditures scheduled for fiscal year 2021 be inspected, repaired or replaced as indicated by a professional. Fully funded reserve components are components that have reached its useful life and/or exceeded its average life expectancy. The board should inspect and review each component before approving deferment, replacement and/or repair of the reserve components.

The Anticipated Reserve Expenditures are as follows for Fiscal Year:	2021
Concrete Repairs/Replace Sidewalks	\$12,103
Sliding Glass Door @ Spa Room	\$2,903
Restroom Exhaust Fans	\$594
Tennis Court Seal & Repair	\$13,200
Swing Chair Chain	\$1,416
Anticipated Reserve Expenditure Total For FYE: 2021	\$30.216

Assessment and Reserve Funding Disclosure Summary
Based On Fiscal Year Ending December 31, 2020
Civil Code §5570

- 6. Based on the method of calculation in (4) of subdivision (b) of Section §5570, the estimated amount required in the reserve fund at the end of the current fiscal year is: \$184,606 based in whole or in part on the last reserve study or update prepared by Golden Consulting Group as of October 2020. The projected reserve fund cash balance is \$280,616 resulting in the reserves being 152% at this date.
- 7. Based on the method of calculation in (4) of subdivision (b) of Section §5570 of the Civil Code, the estimated amount required in the reserve fund at the end of each of the next five budget years and the projected reserve fund cash balance in each of those years, taking into account only assessments already approved and other known revenues and the projected reserve fund cash balance in each of those years, taking into account only assessments already approved and other known revenues, leaving the reserves percent funding at the following:

FVE	Projected	Projected	Estimated	Percent
FYE	Contribution	Cash Balance	Required	Funded
2021	\$24,780	\$272,106	\$218,891	124%
2022	\$25,824	\$260,434	\$228,013	114%
2023	\$28,245	\$251,947	\$228,307	110%

2025	\$33.087	\$295.877	\$260.062	114%

Note: The financial representations set forth in this summary are based on the best estimates of the preparer at that time. The estimates are subject to change. At the time this summary was prepared, the assumed long-term before tax estimated interest rate earned on reserve funds is 0.1% per year, and the assumed long-term inflation rate to be applied to major component repair and replacement costs was 2.50% per year.

#### **FUNDING DISCLOSURE SUMMARY**

[Civil Code §5300(e)]

- (b) For purposes of preparing a summary pursuant to this section:
- 1. "Estimated remaining useful life" means the time reasonably calculated to remain before a major component will require replacement.
- 2. "Major component" has the meaning used in section 55530. Components with an estimated remaining useful life of more than thirty (30) years may be included in a study as a capital asset or disregarded from the reserve calculation, so long as the decision is revealed in the reserve study report and reported in the Assessment and Reserve Funding Disclosure.
- 3. The form set out in subdivision (a) shall accompany each pro forma operating budget or summary thereof that is delivered pursuant to section §5300 this article. The form may be supplemented or modified to clarify the information delivered, so long as the minimum information set out in subdivision (a) is provided.
- 4. For the purpose of the report and summary, the amount of reserves needed to be accumulated for a component at a given time shall be computed as the current cost of replacement or repair multiplied by the number of years the component has been in service divided by the useful life of the component. This shall not be construed to require the board to fund reserves in accordance with this calculation.

Due to factors beyond the control of the Directors, including but not limited to the rate of inflation, the rate at which the major components actually deteriorate, unanticipated damage to the major components, fluctuations in material and labor costs and changes in building codes and regulations, the accuracy of the information set forth above is not, and cannot be, guaranteed. Depending upon the accuracy of the present and future assumptions used in providing the information and conclusions set forth in said may not be correct. Therefore, any person reviewing this Assessment and Reserve Funding Disclosure Summary should not, without conducting their own independent investigation and analysis, rely upon the accuracy of the information.

The information in the Assessment and Reserve Funding Disclosure Summary is deemed reliable as of the date of the disclosure, but is not guaranteed. Golden Consulting Group has obtained information, documentation, and materials from the Association and/or agent and this disclosure summary is based upon the accuracy of such information. The Association, by accepting this disclosure summary, agrees to release Golden Consulting Group form any claims, demands or damages and further agrees to indemnify, defend and hold harmless Golden Consulting Group from and against any and all liability, damages, losses, claims, demands, or lawsuits arising out of or relating to this disclosure.

The board is hereby requested to review and notify Golden Consulting Group within 30 days after the receipt of the study or update with any requested changes, errors or discrepancies within the report. Golden Consulting Group will act within 48 hours to address any requested changes, errors or discrepancies within the study or update. The reserve study or update should be reviewed and approved by the board within 45 days of the receipt of the report.

The board is cautioned to understand that the funding plan has projected the current funds on hand and has increased the contributions in accordance to the thirty (30) year cash flow analysis as required by Davis-Stirling Act. It is impossible to project thirty (30) years into the future to ascertain the cost of repair or replacement of any of the components, let alone the value of money, changing building code requirements and other unknowns. Golden Consulting Group has estimated and projected future cost of repairs and replacement of those components for the Board of Directors of the above Homeowners Association.

#### Board Alterations to Study and/or Updates

**Question:** I'm on our board and we just completed reviewing our reserve study. There are items on the list with a life that equals or exceeds the estimated life of the buildings. We wanted them removed, but the analyst refused. Doesn't our board have the authority to remove components?

**Answer:** Not really. That's like asking an attorney to change his legal opinion because the board disagrees with it. Or telling a CPA to change his audit report because directors don't like what he found. A reserve specialist is a professional who prepares a report based on his own observations and calculations—it's his report to the board.

**Adjustments**. Accordingly, boards have no "right" to dictate changes to an independent professional's report. However, adjustments can be made to draft opinions/reports by attorneys, CPAs and reserve specialists if the adjustments are reasonable and the professional agrees. For example if something is unclear or is missing and needs to be addressed by the professional, it can be included in the final report.

**Funding.** Although reserve specialists establish the list of major components, the board can choose not to fund particular items if it complies with Davis-Stirling disclosure requirements, i.e., the report must disclose:

Whether the board of directors of the association has determined to defer or not undertake repairs or replacement of any major component with a remaining life of 30 years or less, including a justification for the deferral or decision not to undertake the repairs or replacement. (Civ. Code §5300(b)(4))

Accordingly, a reserve study could list components in the inventory and then eliminate them from funding calculations with a note that funding was removed at the board's request.

30-Year+ Life. Including components in the Study with useful life of over 30 years with no funding creates a "marker" for future inclusion in the funding plan when the life expectancy falls below 30 years. This is especially important when it comes to plumbing systems since they are hidden in walls and frequently overlooked by boards--until they fail and large special assessments are needed.

# OAK HILLS HOMEOWNERS ASSOCIATION- Sandbur Private Drive Percent Funding of Reserves

The OAK HILLS HOMEOWNERS ASSOCIATION- Sandbur Private Drive was originally built and/or renovated in 1979 became an active Homeowner Association in 1979. An on-site visual inspection of the common reserve components was performed on September 24, 2020 by Golden Consulting Group.

The percent funded for OAK HILLS HOMEOWNERS ASSOCIATION- Sandbur Private Drive is estimated at Fiscal Year End, December 31, 2020 is 106%. Golden Consulting Group has based this method of calculation by dividing the actual reserve account balance as of fiscal year end by the estimated amount required in the reserve fund at the end of the current fiscal year. Based on the enclosed current 30 Year Reserve Study Funding Plan it is estimated that the reserve account balance SHOULD BE sufficient at the end of each year to meet the Association's obligation for repair and/or replacement of major components during the next 30 years.

However in order to ensure the association's projected reserve expenditures the association should approve annual increases starting in fiscal year 2021 and continuing thru fiscal year 2050. By using the enclosed 30 Year Reserve Study Funding Plan, a Special Assessment WILL NOT likely be necessary to fund the reserves.

In general, the OAK HILLS HOMEOWNERS ASSOCIATION- Sandbur Private Drive is overall in GOOD CONDITION. The baseline funding strategy sets a funding goal of keeping enough cash to maintain the association's reserve components always. The approximate replacement/repair costs for Association is estimated at approximately \$19,454.

Golden Consulting Group has estimated the projected average future cost of repairs and replacement of those components for the Association. The annual reserves are based on a straight- line approach: Replacement Costs divided by Life Expectancy per each component. Based upon the Golden Consulting Group's calculations the annual reserve contribution would be approximately \$3,479 a year. The estimated fully funded accrued amount or the aged components is approximately \$3,032. This is calculated Life Expectancy minus Remaining Life times (x) annual reserve contribution. The recommended annual reserve contribution for fiscal year beginning, January 1, 2021 will be decreased from \$2,016 to \$1,920 which is an overall decrease of 5% however an 11% increase to the 4 units of \$40 per unit per month (Private Drive Amended from 5 units to 4 units) with no additional increases to ensure the capital improvements/maintenance obligations of the Association.

Golden Consulting Group uses a 2.5% annual cpi inflation rate to calculate the 30 year funding maintenance plan. However, based on the inflation rates listed below the average inflation rate over the last 18 years is 2.2%.

PERCENT FUNDED	106%
Current US Inflation Rates: 2000-2019	2.50%
Estimated Interest Rate Reserve Account	0.01%
Annual Reserves Required (Based on Straight Line Funding Method)	\$3,479
Reserve Account Balance as of December 31, 2019	\$1,183
2020 Reserve Contribution (Jan-Dec)	\$2,016
2020 Average Interest Rate on Reserve Account @ .01%	\$0
2020 Reserve Expenditures (Jan-Dec)	\$0
Estimated Reserve Balance as of FYE December 31, 2020	\$3,199
Fully Funded Accrued Reserve Amount as of FYE, December 31, 2020	\$3,032
Reserve Balance - Fully Funded Balance Surplus:	\$167
Reserve Balance - Fully Funded Balance Surplus Per Unit	\$42

The estimated reserve account balance does not take into consideration any monies owed to the reserve fund and/or any delinquent accounts. The estimated reserve balance only includes actual cash on hand located in the reserve account as of December 31, 2019 and any future reserve contributions minus any anticipated reserve expenditures.

The enclosed reserve study/update is not a maintenance manual but it does provide some general guidelines regarding the association maintenance obligations. This Reserve Study is a good faith estimate from either plans prior to construction and/or completion and/or existing historical data. The association should conduct or should have conducted a reserve study after its first year of operation to adjust the reserve funding plan for any changes which may have taken place during construction. Although some components may be inspected, serviced and maintained by the Association, it's always advised to have a qualified licensed professional perform the maintenance and care of the product. If you are unsure of the maintenance, please refer to the manufactures user guide.

Showing a reserve deficit/surplus does not necessarily indicate that an association is in good or poor financial condition. The current funding plan will help eliminate the presence of surplus and/or deficit over a period of years. However, funding levels could decrease or increase each year based upon repairs and/or replacements which may be scheduled and for unforeseen replacements, in which annual reserve updates are necessary to account for the changes and/or adjustments.

The enclosed reserve study/update should act as a long-term budgeting tool that evaluates the current financial status and helps develop a maintenance plan for future spending due to the aging and deterioration of the association's reserve components.

During an on-site visual inspection of the reserve components, Golden Consulting Group will visually examined both the both physical appearance and working condition of the component(s). Normally only those components which have an estimated useful life of less than 30 years will be included in the study, in which the Association would be responsible for the maintenance (repaired, replaced, or service).

Any component that is scheduled to be repaired or replaced annually should be included in the operating budget unless the Board of Directors specifies otherwise. This reserve study is not intended to be used to perform an audit, an analysis of quality, a forensic study or a background check of the historical records. No destructive testing has been undertaken nor will the study address any latent defects or life expectancies which are abnormally short due to either improper design and/or installation, unless the Association or members has contracted with an independent consulting to examine and report the findings on specific components. The reserve study is solely based upon the visual condition, maintenance, service and/or the replacement of the reserve components rather than the reconstruction, renovation, or remodeling of the component(s). It is impossible to project thirty (30) years into the future to ascertain the cost of repair or replacement of any of the components, let alone the value of money, changing building code requirements and other unknowns. It's always recommended and advised to have a qualified licensed professional perform the maintenance and care of the components. If you are unsure of the maintenance of a specific reserve component, please refer to the manufacturer guide.

Per Civil Code §5300(b)(4)) The board of directors of the association must disclose if they determined to defer or not undertake repairs or replacement of any major component with a remaining life of 30 years or less, including a justification for the deferral or decision not to undertake the repairs or replacement.

For Fiscal Year Ending 2020: The board HAS NOT chosen to defer maintenance and/or replacement of the anticipated reserve expenditures. (see study for more information)

#### The Anticipated Reserve Expenditures were as follows for Fiscal Year:

2020

Repayment of Loan of \$2,160

·

#### Maintenance will only be deferred 1 Year unless the Board of Directors specifies otherwise.

It is our recommendation that all anticipated reserve expenditures scheduled for fiscal year 2021 be inspected, repaired or replaced as indicated by a professional. Fully funded reserve components are components that have reached its useful life and/or exceeded its average life expectancy. The board should inspect and review each component before approving deferment, replacement and/or repair of the reserve components.

#### The Anticipated Reserve Expenditures are as follows for Fiscal Year:

2021

Loan Repayment

\$2,592

#### Assessment and Reserve Funding Disclosure Summary

Assessment and Reserve Funding Disclosure Summary Based On Fiscal Year Ending December 31, 2020 Civil Code §5570

- 6. Based on the method of calculation in (4) of subdivision (b) of Section §5570, the estimated amount required in the reserve fund at the end of the current fiscal year is: \$3,032 based in whole or in part on the last reserve study or update prepared by Golden Consulting Group as of October 2020. The projected reserve fund cash balance is \$3,199 resulting in the reserves being 106% at this date.
- 7. Based on the method of calculation in (4) of subdivision (b) of Section §5570 of the Civil Code, the estimated amount required in the reserve fund at the end of each of the next five budget years and the projected reserve fund cash balance in each of those years, taking into account only assessments already approved and other known revenues and the projected reserve fund cash balance in each of those years, taking into account only assessments already approved and other known revenues, leaving the reserves percent funding at the following:

FYE	Projected Contribution	Projected Cash Balance	Estimated Required	Percent Funded
2021	\$1,920	\$2,528	\$6,511	39%
2022	\$1,920	\$1,337	\$8,115	16%
2023	\$1,920	\$1,075	\$6,182	17%
2024	\$1,920	\$2,995	\$4,945	61%
2025	\$1,920	\$2,779	\$5,854	47%

Note: The financial representations set forth in this summary are based on the best estimates of the preparer at that time. The estimates are subject to change. At the time this summary was prepared, the assumed long-term before tax estimated interest rate earned on reserve funds is 0.01% per year, and the assumed long-term inflation rate to be applied to major component repair and replacement costs was 2.50% per year.

#### **FUNDING DISCLOSURE SUMMARY**

[Civil Code §5300(e)]

- (b) For purposes of preparing a summary pursuant to this section:
- 1. "Estimated remaining useful life" means the time reasonably calculated to remain before a major component will require replacement.
- 2. "Major component" has the meaning used in section 55530. Components with an estimated remaining useful life of more than thirty (30) years may be included in a study as a capital asset or disregarded from the reserve calculation, so long as the decision is revealed in the reserve study report and reported in the Assessment and Reserve Funding Disclosure.
- 3. The form set out in subdivision (a) shall accompany each pro forma operating budget or summary thereof that is delivered pursuant to section §5300 this article. The form may be supplemented or modified to clarify the information delivered, so long as the minimum information set out in subdivision (a) is provided.
- 4. For the purpose of the report and summary, the amount of reserves needed to be accumulated for a component at a given time shall be computed as the current cost of replacement or repair multiplied by the number of years the component has been in service divided by the useful life of the component. This shall not be construed to require the board to fund reserves in accordance with this calculation.

Due to factors beyond the control of the Directors, including but not limited to the rate of inflation, the rate at which the major components actually deteriorate, unanticipated damage to the major components, fluctuations in material and labor costs and changes in building codes and regulations, the accuracy of the information set forth above is not, and cannot be, guaranteed. Depending upon the accuracy of the present and future assumptions used in providing the information and conclusions set forth in said may not be correct. Therefore, any person reviewing this Assessment and Reserve Funding Disclosure Summary should not, without conducting their own independent investigation and analysis, rely upon the accuracy of the information.

The information in the Assessment and Reserve Funding Disclosure Summary is deemed reliable as of the date of the disclosure, but is not guaranteed. Golden Consulting Group has obtained information, documentation, and materials from the Association and/or agent and this disclosure summary is based upon the accuracy of such information. The Association, by accepting this disclosure summary, agrees to release Golden Consulting Group form any claims, demands or damages and further agrees to indemnify, defend and hold harmless Golden Consulting Group from and against any and all liability, damages, losses, claims, demands, or lawsuits arising out of or relating to this disclosure.
